Bidder Signature	Department of Transportation <i>Athena Nance</i>
Signature of person authorized to sign	Authorizing Signature
Date Signed:	Date Signed: 05/05/2011

QUESTIONS –

Question #1: Section 1.5 says the vendor will supply a quotation for trenching per linear foot and rock excavation per linear foot. The pricing page does not include an area to write in these prices.

Answer: We set these up as lump sum, it should not be necessary for a trenching or rock excavation price but if a bidder thinks it is needed they should include those totals in their lump sum bid for the poles in question.

Question #2: Is the contractor simply supposed to relocate the existing pole and sirens? The scope of work seems to be a for a new installation as opposed to a relocate of existing sirens project. Can you please clarify this.

Answer: This Job is just to relocate the existing warning sirens. They are solar powered and everything is contained on the existing poles.
